

Christmas Comes American Style

I think I know what I like best
It's Christmas day above the rest
It comes to everyone they say
But I prefer the American way ...
Well this is what it means to me
Some gifts below a Christmas tree
With heart and hope for everyone
And thank my lord a savior's come

*Christmas comes the American way,
with Santa's help, on a bright red sleigh.
And Northern lights dance playfully,
like the tinsel hung from a Christmas tree ...
and Christmas comes in American style,
We praise the Lord for a holy child.
Give thanks for all this good life brings,
like you and the land and the wild things ...*

With common themes, throughout the Earth
Of a Santa Clause, and a virgin birth
I'll let the others have their say
But I prefer the American way ...
The way we value, freedom and choice
Yet come together, and as if in one voice
And pray the lord, our souls redeem
It's still a part of an American dream

*Christmas comes to American shores,
to the idle rich and the struggling poor.
Where it doesn't matter what your worth
for spreading love and peace on Earth ...
Christmas comes to American soil,
with a message for every boy and girl.
to remember those that you love best,
but save a prayer for the rest ...*
