

Final Frontier

I had walked a thousand miles, in my younger days
Over hills and valley's, exploring in the caves
But there is no grand adventure, that I can choose to do
Than explore the truth and mystery, and the wonder that is you

I have dived the deepest oceans, and sailed the seven seas
The many miles across and the countless fathoms deep
But there's no waves to sail on, or depths to swim in to
Yet I would drift forever, for a chance to be with you

*I'll be like Marco Polo filled with pride
Or Christopher Columbus, that sails back to your side
Questing for those things that I hold dear
And someday I will come to you - my hearts final frontier*

I've trekked across the universe and seen the milky way
And taken trips in rocket ships that have no night and day
Out in space there is no place, that I can come home to
So in my mind I search and find, everything that's you

Just back from the future, I've traveled across time
Crossing five dimensions, and returning on a dime
I can search in other worlds but one thing that is true
In all the lands and seas and stars, there is no other you

*I'll be like Glenn or Armstrong out in space
Or Verne who never really took the time to know one place
Questing for those things that I hold dear
And someday I will come to you - my hearts final frontier*

There's one more grand adventure with secrets to reveal
To know everything about you, exactly how you feel
Even if it's the last thing, that I will ever do
I'll spend my days and learn the ways and meanings about you

In all my years of wandering my final challenge here
To explore you're inner feelings, will be my last frontier
Expose me to your elements and weather patterns too
And fill me with the mystery and the wonder that is you

*Questing for those things that I hold dear
And someday I will come to you - my hearts final frontier*

_____

And someday I will come to you - my hearts final frontier
