

You Can't Break Me

You can put me up for waivers
Do not do me any favors
But you can't break me
No, you can't break me

You can lower all my salary
And try assault and battery
But you can't break me
No, you can't break me

*Dish it out - I can suck it up
Take your best shot if you want to
Put me down - if it's not enough
I can get along with out you*

--

You can take my holdings honey
You can take half of my money
But you can't break me
No, you can't break me

You can stop your lovin baby
And you think it drives me crazy
But you can't break me
No, you can't break me

*Dish it out - I can suck it up
Take your best shot if you want to
Put me down - if it's not enough
I can get along with out you*

**No you can't break me
Can't break me
As a matter of fact - I'm above all that
So you can't break me**

Seems that every time I struggle
There is nothing here but trouble
But you can't break me
No, you can't break me

Success is right around the bend.
I will win out in the end.
Cause you can't break me
No, you can't break me

*Dish it out - I can suck it up
Take your best shot if you want to
Put me down - if it's not enough
I can get along with out you*
